

ChE 359/384 Technology Paper

due 11/17/09

Technology project report (7-10 pages, 2000 to 3000 words).

The report grading will be based on report organization, quality of writing, identification of technological challenges, possible solutions and future R&D, thoroughness of literature review and analysis, presentation of information (use of figures and tables), conclusions and references.

All reports should have an abstract, table of contents, main body, conclusions and references. Sample reports will be posted on the course website.
